

Meritor Parts

Meritor Parts - The Meritor Company is a leading international dealer established upon one hundred years of tradition of service and quality. Meritor concentrates on integrated systems with a range of modules and parts to the original equipment manufacturers and aftermarket equipment within the transportation and industrial sectors.

Meritor values the requirements of all their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their international operations. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused employees. These top-caliber workers can rapidly get used to to changing environments and freely exhibit the level of commitment and performance necessary in order to get results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers their staff different possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of drivelines, axles, suspension and braking systems intended for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their global engineering personnel.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated around the globe in 19 countries and in 5 different continents.

They have their supplier network that is particularly located in order to support the growth of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is even comprised of transactional Green Belts who utilize Six Sigma tools to business methods and apply lean techniques.
